AK35017 TECHNICAL RIDERS

1:35 SCALE

12,95€

This reference contains four highly detailed, ready to assemble, 1/35 scale figures depicting typical crewmen of light combat vehicles participating in conflicts in the Middle East or North Africa during the last few decades.

Their dynamic poses make them perfect complement for any type of scene or diorama. They have been developed with the AK-Interactive FJ43 kits in mind, but will be equally useful for many other different vehicle kits available in 1/35 scale.

Esta referencia contiene cuatro figuras finamente detalladas a escala 1/35, que representan distintos tripulantes para diferentes vehículos ligeros ubicados en conflictos en Oriente Medio o el Norte de África durante las últimas décadas.

Sus poses dinámicas las convierten en el complemento perfecto para cualquier tipo de escena o diorama. Han sido desarrolladas para los kits AK-Interactive FJ43 y son adaptables para cualquier otro vehículo ligero de otras marcas en escala 1/35.

- Adaptable to different vehicles and scenes.

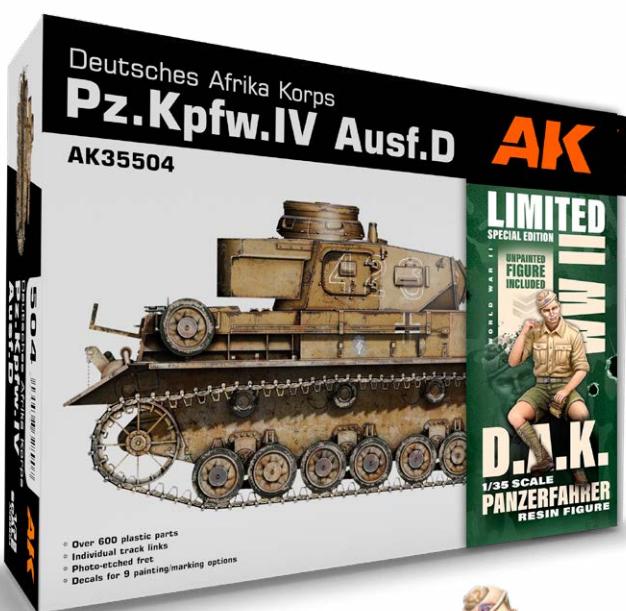

- Easy to disassemble.

- Different extra accessories included.

- Adaptables a distintos vehículos y escenas.

- Despiece sencillo.

- Diferentes accesorios extra incluidos.

PZ.KPFW.IV AUSF.D AFRIKA KORPS + DAK PANZERFAHRER 1/35 SCALE

Limited edition 1/35 scale model kit of the Panzer IV Ausf.D tropical version. This edition includes a highly detailed high quality resin 3d printed figure of a Panzerfahrer. Production of the Pz.Kpfw.IV Ausf.D began in October 1939 and a total of 232 vehicles were completed until October 1940, with around 30 converted for use in tropical conditions by installing improved ventilation system and sand filters. A few of these were also fitted with add-on armor on the front and sides of the superstructure.

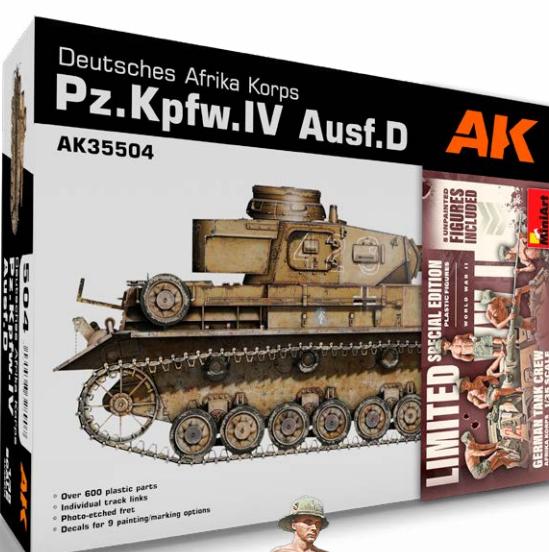

The 4th and 8th companies of Panzer Regiment 5 belonging to the Deutsches Afrika Korps (DAK) used this variant in combat in North Africa though it was soon superseded by more effective longer-gunned variants.

The exclusive decal sheet printed by Cartograf contains markings for 8 different vehicles that served in North Africa in 1941, including one captured by British troops.

The kit features:

- Realistic suspension with multiple components which actually works like in the real vehicle.
- Tracks assembled from individual links.
- Simple tool for creating a realistic track sag.
- Separate front and rear fenders can be posed in a folded-back position.
- Optional add-on armor for the superstructure.
- Driver's and radio operator's hatches with interior detail can be posed open or closed.
- Complete machine gun with workable ball mount in the hull.
- DAK type engine deck hatches can be posed open or closed.
- Turret hatches, pistol port, signal port and ventilation cover can be assembled open or closed.
- 5-directional slide-molded commander's cupola authentically recreates structural details.
- Realistic KwK 37 L/24 gun with delicate catcher for spent ammo shells and accurate rifling in gun barrel.
- Turret turntable unit with accurate floor pattern and crewmen seats.
- Photo-etched parts are provided for detailing on-vehicle tools, fenders, smoke grenade rack and installing optional marking placards.

Edición limitada a escala 1/35 del Panzer IV Ausf.D versión tropical. Esta edición especial incluye una figura de un conductor realizada en impresora 3d con resina de alta calidad y con alto nivel de detalle. La producción del Pz.Kpfw.IV Ausf.D comenzó en octubre de 1939 y se completaron un total de 232 vehículos hasta octubre de 1940, con unos 30 convertidos para su uso en condiciones tropicales mediante la instalación de un sistema de ventilación mejorado y filtros de arena.
