

**AK 2040**  
**EXHAUST WASH**

The perfect wash for aircraft exhausts. Just shake well before use and you can apply it directly to your model to create depth in the details of the aircraft exhausts and engine parts. This is an enamel product and can be dissolved using our white spirit or ODOURLESS TUR-

**PENTINE.** We recommend that this product is applied to surfaces that have been painted or varnished with acrylic paint.

Apply the wash directly from the bottle with a round brush.

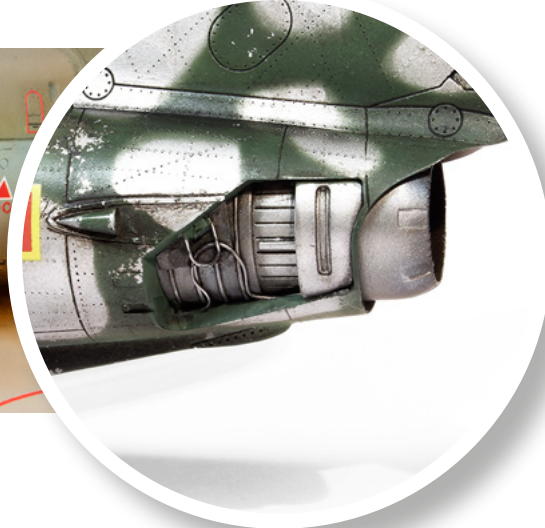

Use white spirit to remove the excess wash.

As you can see the final result is very convincing.

This wash will make your exhausts look realistic on your models.

Combined with other products from the Air Series the possibilities are almost unlimited. But study well your reference material in order to create the most realistic results.
