

catalogue_2026

At AK, we understand modeling as a form of expression where every detail matters. That's why our products and paints are not just another option on the market, but the result of constant dedication to innovation, quality, and design. Behind every item is a passionate team that meticulously oversees every aspect, from product formulation to packaging aesthetics, creating a unique and easily recognizable identity.

The result is a range of solutions designed to inspire: innovative, visually appealing products developed under the highest quality standards. Every AK line is crafted to meet the specific needs of the various branches of modeling, offering both hobbyists and professionals the perfect tools to take each project one step further.

Fernando Vallejo
AK Interactive Spain

En AK entendemos el modelismo como una forma de expresión donde cada detalle cuenta. Por eso, nuestros productos y pinturas no son simplemente una opción más en el mercado, sino el resultado de una dedicación constante a la innovación, la calidad y el diseño. Detrás de cada referencia hay un equipo apasionado que cuida minuciosamente cada aspecto, desde la formulación del producto hasta la estética de su envase, logrando una identidad propia, fácilmente reconocible.

El resultado es una gama de soluciones pensadas para inspirar: productos innovadores, visualmente atractivos y desarrollados bajo los más altos estándares de calidad. Cada línea de AK está diseñada para responder a las necesidades específicas de las distintas ramas del modelismo, ofreciendo al aficionado y al profesional las herramientas perfectas para llevar cada proyecto un paso más allá.

Fernando Vallejo
AK Interactive España

WHO WE ARE / QUIÉNES SOMOS

Driven by a constant passion for creation and innovation, AK Interactive is a dynamic Spanish company dedicated to developing cutting-edge products for the modeling world. Since its founding in 2008, the company has continued to evolve, constantly adapting to the real needs of modelers around the world.

This evolution and growth has been made possible thanks to a multidisciplinary team made up of some of the most outstanding professionals in the industry, as well as a solid international network of distributors and retailers, which has positioned AK Interactive as a benchmark brand in most countries.

The AK team is made up of artists, designers, modelers, researchers, chemists, operators, salespeople, and a strong administrative department that coordinates and oversees all factory and warehouse activities. This structure is complemented by collaborators from around the world who actively participate in editorial and creative projects such as books, magazines, and audiovisual material.

Today, both our publications and our products have become true reference guides and essential supplies for thousands of modelers, establishing AK Interactive as a synonym for quality, innovation, and commitment to the hobby.

Impulsada por una pasión constante por la creación y la innovación, AK Interactive es una empresa española dinámica dedicada al desarrollo de productos de vanguardia para el mundo del modelismo. Desde su fundación en 2008, la compañía no ha dejado de evolucionar, adaptándose continuamente a las necesidades reales de los modelistas de todo el mundo.

Esta evolución y crecimiento ha sido posible gracias a un equipo multidisciplinar formado por algunos de los profesionales más destacados del sector, así como a una sólida red internacional de distribuidores y tiendas, que ha posicionado a AK Interactive como una marca de referencia en la mayoría de los países.

El equipo de AK está compuesto por artistas, diseñadores, modelistas, investigadores, químicos, operarios, comerciales y un potente departamento administrativo que coordina y controla todas las actividades de la fábrica y el almacén. A esta estructura se suman colaboradores de todo el mundo que participan activamente en proyectos editoriales y creativos como libros, revistas y material audiovisual. Hoy en día, tanto nuestras publicaciones como nuestros productos se han convertido en auténticas guías de referencia y consumibles indispensables para miles de modelistas, consolidando a AK Interactive como sinónimo de calidad, innovación y compromiso con el hobby.

COLOR RESEARCH, DEVELOPMENT AND MANUFACTURING / INVESTIGACIÓN DEL COLOR, DESARROLLO Y FABRICACIÓN.

RESEARCH / INVESTIGACIÓN

AK Interactive works and collaborates with many people to achieve the most accurate colors. Military historians and paint specialists join forces with modellers to find the most exact formula for each color. Specialists, along with the artist/modeller, search and study the right shade for each color in order to prepare color samples. If paint can be extracted directly from the original object, a sample will be delivered to the AK headquarters and the factory for analysis.

AK Interactive trabaja y colabora con numerosos expertos para lograr los colores más precisos. Historiadores, militares y especialistas en la materia unen sus esfuerzos con modelistas para definir el patrón exacto de cada color y sus tonos adecuados. Siempre que es posible, se obtienen los colores directamente de objetos originales, y a partir de ellos se preparan muestras en el laboratorio.

COLOR DEVELOPMENT AND ADJUSTMENT / AJUSTE Y DESARROLLO DE LOS COLORES

COLOR SCAN / ESCANEADO DEL COLOR

Color samples arrive in two ways: the color comes already applied on a sheet or original item, or it comes in a jar which we then apply over a sheet. From the sheet we read it with a spectrophotometer which gives us its coordinates and color curves.

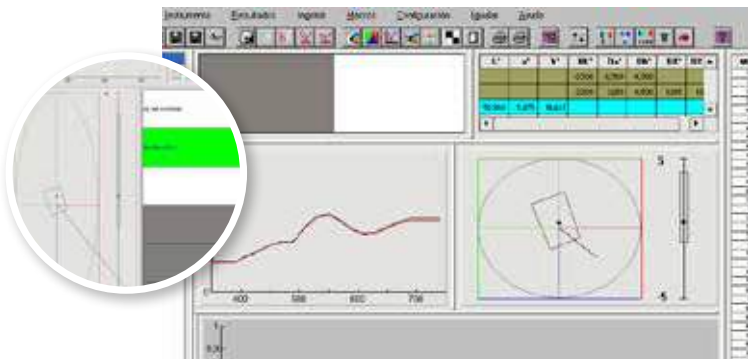

Nuestros colores se obtienen y llegan al laboratorio de dos maneras: aplicados sobre una cartulina de muestra o directamente en un envase, del cual se toma una muestra para pintar. La muestra de color en cartulina se analiza con un espectrofotómetro, mediante el cual nuestros químicos obtiene las coordenadas y curvas de color correspondientes.

CALIBRATING THE FORMULA / CALIBRANDO LA FÓRMULA

With our cutting-edge colour formulation software, which has been previously calibrated and adjusted to our raw materials, we start working to achieve the desired color. We input all necessary parameters. This way, the software gives us a formula to reproduce the color, taking into account not only the overall color appearance, but its complete color curve and the effects of different lighting sources such as daylight, incandescent, and fluorescent light.

Con un software de formulación de color de última generación, se inicia el proceso para obtener el tono adecuado. Se introducen distintos parámetros requeridos, como el índice de cobertura, saturación y los pigmentos a utilizar, para que el sistema proporcione la fórmula que permitirá reproducir el color, considerando no solo su apariencia general, sino también su curva cromática completa y los diferentes efectos de luz, como la luz diurna, incandescente y fluorescente.

MATCHING & ACCURACY / AJUSTE Y PRECISIÓN

We produce the suggested formula from the software and apply it over a sheet to compare it with the original pattern to check for any slight differences. Usually, the software gives us a very close result to the original, but not a perfect match. Once again, with the spectrophotometer, we take the data of the new color and correct it with our software to adjust it to the original pattern.

La fórmula generada por el software se reproduce y se aplica sobre una cartulina de muestra para compararla con el patrón original y verificar posibles diferencias. Por lo general, el software ofrece un resultado muy cercano al color de referencia, aunque no siempre exacto. Nuevamente, mediante el espectrofotómetro, se registran los datos del nuevo color y se trabaja con el programa para ajustarlo hasta alcanzar el patrón original.

FINAL TEST / PRUEBA FINAL

The normal process is to make two corrections over the first input. Once ready, we send it to the responsible person to get their approval and get it ready for production.

Se realizan diversas pruebas en diferentes soportes y, una vez verificado que todo es correcto, la persona responsable de supervisar el proceso aprueba el color, dejándolo listo para iniciar su producción.

PRODUCTION / PRODUCCIÓN

Once production starts, we make another test over a plastic sheet to check coverage, quality and color. If for any reason there has been any change in the parameters, we fix it until it is correct. We keep a color swatch of each color manufactured.

Una vez iniciada la producción, en cada lote se realizan nuevas pruebas para verificar la capacidad de cobertura, la calidad y el color de cada referencia. Si por alguna razón se detecta alguna variación en algún parámetro, se corrige durante el proceso de testeo. Finalmente, se archiva una muestra de cada color.

QUALITY / CALIDAD

This color development and manufacturing procedure is protected and audited under the ISO 9001 quality standard.

Este procedimiento de desarrollo y fabricación está protegido y auditado conforme al estándar de calidad ISO 9001.

PAINT PRODUCTION PROCESS / PROCESO DE FABRICACIÓN DE LAS PINTURAS

In AK Interactive, we want to show you how our paints are created in our factory. The previous process is more complicated as colors have to be tested over and over again until we achieve the proper and absolute shade. Once perfected, the colored chip is computer-scanned in a special machine in order to archive the correct values. Our paints are computer-formulated, kept in files where we store the exact quantity of pigment and chemical composition for each color. Once the process begins to create a paint, the exact amount of each component is placed mechanically in a container. It is then well-mixed for an extended period of time, until the complete mix has certain kind of texture and color uniformity depending on the formula used.

En las líneas de producción de la fábrica comienza el proceso de llenado de los botes. Este proceso debe controlarse con sumo cuidado, ya que cualquier incidencia podría alterar el tono de la pintura. Una vez finalizado y tras superar el control de calidad, las botellas están listas para ser etiquetadas; en esta etapa, se colocan las etiquetas previamente impresas con su referencia y código de barras.

ANOTHER QUALITY TEST / OTRO TEST DE CALIDAD

To make sure our products have the best quality we make a random quality test over every batch. We take one of the jars from each batch and test its consistency using both brush and airbrush. For all those products which are not acrylics, the process is the same but may require further testing over plastic painted pieces or similar.

Para estar seguros que nuestros productos tienen la mejor calidad hacemos un control aleatorio sobre cada lote. Elegimos una botella por cada lote y probamos su consistencia a pincel y aerógrafo. Esto ocurre de igual manera para aquellos productos que no son acrílicos, el proceso es el mismo aunque algunos requieren pruebas más profundas en plástico u otros materiales.

STOCKING / ALMACENAJE, COMERCIALIZACION

Once all quality processes have been completed and we are satisfied with the result, it's now time to stock them properly and get them ready so they can arrive in perfect condition at your home.

Una vez todos los procesos de calidad han terminado y estamos satisfechos con el resultado, es el momento de almacenarlas correctamente y prepararlas para que estén listas para su envío y comercialización.

3GEN ACRYLICS

The best acrylics to paint everything!!

ACRYLIC PAINTS / PINTURAS ACRÍLICAS

3 GEN ACRYLICS

WHAT DOES THIS MEAN?

¿QUÉ SIGNIFICA ESTO?

We have evolved and revolutionized the rules that governed acrylic paints, allowing us to present the third generation acrylics at the service of the world of scale modeling and fine arts. These paints feature high opacity and pigmentation, and they are specially formulated to be applied by brush and airbrush to scale models and miniatures made of resin, plastic or metal.

Acrylic paints offer major advantages such as non-toxicity and versatility, but until now they have not been able to provide comprehensive performance, as they present shortcomings in terms of adhesion, airbrush nozzle clogging, and coverage issues.

We have taken on the challenge of maintaining their advantages, solving these drawbacks, and improving their overall performance. After a long period of developing and refining new formulas in the laboratory, we were eager to showcase the results. This is a general range suitable for any branch of modeling. Painting with acrylics will never be the same again...

Hemos evolucionado y revolucionado las normas que regían las pinturas acrílicas y os presentamos el acrílico de tercera generación al servicio del mundo del modelismo y las bellas artes. Estas pinturas poseen una alta opacidad y pigmentación y están especialmente formuladas para ser aplicadas a pincel y aerógrafo en maquetas y miniaturas de resina, plástico o metal.

Las pinturas acrílicas presentan grandes ventajas como la ausencia de toxicidad y versatilidad pero son pinturas que no han podido ofrecer hasta ahora una funcionalidad integral al presentar deficiencias en cuanto a adherencia, atascos en la boquilla del aerógrafo o problemas de cobertura.

Hemos asumido el reto de mantener las ventajas, resolver los inconvenientes y mejorar las características. Después de mucho tiempo desarrollando y perfeccionando nuevas fórmulas en el laboratorio estábamos impacientes por mostrar los resultados. Esta es una gama general para cualquier rama del modelismo. Pintar con acrílicos ya no es lo mismo...

NEW FORMULA NUEVA FÓRMULA

New formula featuring high performance resins and high quality components. The paints are made in accordance with European regulations, thus ensuring that no harmful substances are used that could pose a risk to the health of the user and the environment.

Nueva fórmula con resinas de altas prestaciones y componentes de alta calidad. Las pinturas se elaboran conforme a la normativa Europea, garantizando así que no se empleen sustancias nocivas que podrían implicar un riesgo para la salud del usuario y del medioambiente.

READY FOR BRUSH APPLICATION

LISTOS PARA APLICARSE A PINCEL

The paint is prepared to be applied directly from the bottle by brush. Another of its advantages is the incorporation of special anti-decanter that prevent the separation of the paint components within the bottle. This allows the paints to be ready to use when you are, without the need for prolonged and exhausting bottle shaking to mix the contents.

La pintura está preparada para que puedas pintar directamente del envase a pincel, sin tener que cansarte agitando, ya que otra de sus ventajas es la incorporación de anti-decantantes, especiales que evitan la separación de los componentes de la pintura en el bote.

GRIP ADHERENCIA

Once dry, the colors are permanent and waterproof. They are resistant to oils, enamels, washes, solvents or any potentially aggressive technique. They are easily applied without hiding the finest details of the figures or scale models. Our new formula offers adhesion and resistance up to twice as much as other paints in the market.

Una vez secos, los colores son permanentes e impermeables. Son resistentes a óleos, esmaltes, lavados, disolvente o cualquier técnica potencialmente agresiva. Se extienden fácilmente sin ocultar los detalles más finos de las figuras o maquetas. Nuestra nueva fórmula ofrece una adherencia y resistencia hasta dos veces superior a otras pinturas del mercado.

NO CLOGGING SIN ATASCOS

Are you tired of experiencing clogging in the airbrush with acrylic paints, having cuts in the stroke or getting sandy paint? One of the advantages of the third generation formula is that we have solved these problems and improved the performance.

¿Estás cansado de tener atascos en el aerógrafo con las pinturas acrílicas, de tener cortes en el trazo o pintura arenosa? Una de las ventajas de la fórmula de tercera generación es que hemos solventado estos problemas y mejorado las prestaciones.

HIGH COVERAGE ALTA COBERTURA

High opacity and water-based pigmentation that overcome any other product in the market. Current paints contain cellulose and resins that cause them, even when diluted, not cover or clog in the airbrush. We have created a new formula for brush and airbrush painting avoiding this this problem while also providing short drying times, a short drying time, a matt finish and an intense tone.

Alta opacidad y pigmentación con base agua que supera cualquier otro producto en el mercado. Las pinturas actuales contienen celulosa y resinas que hacen que, incluso siendo diluidas, no cubran o se atasquen en el aerógrafo. Hemos creado una nueva fórmula para pintar a pincel y aerógrafo evitando este problema, consiguiendo un rápido secado, un acabado mate y un tono intenso.

INNOVATIVE DESIGN DISEÑO INNOVADOR

It comes in a 17ml bottle with dropper and its weight is 35gr. The patented design of the cap provides a recess for a small deposit of paint to see the exact tone in vertical position, allowing a fast and exact identification.

Se presenta en un frasco de 17ml. con cuentagotas y su peso es de 35gr. El diseño patentado del tapón permite depositar pintura y ver el tono exacto en posición vertical permitiendo una rápida y exacta identificación.

WIDEST RANGE LA GAMA MÁS AMPLIA

356 state-of-the-art colors, the most extensive range in the market for acrylic colors in which you will find a solution whatever your specialty is. Made with a technologically superior formula for painting with a brush or an airbrush. No toxic elements, very high pigmentation, ideal for scale models, miniatures and modeling in general. 356 colores de última generación, la gama más extensa del mercado para unos colores acrílicos en los que encontrarás solución sea cual sea tu especialidad. Elaborados con una fórmula tecnológicamente superior para pintar con pincel o aerógrafo. Sin elementos tóxicos, de muy alta pigmentación, ideal para maquetas, miniaturas y modelismo en general.

WHAT ELSE CAN YOU EXPECT?

¿QUÉ MÁS PUEDES ESPERAR?

The first thing you are going to see is a bottle with the AK logo identifying the product and a characteristic white cap with a recess on its top that allows to deposit paint and achieve a fast and precise identification of the color. Our team of modelers assumed the role of final consumers, they tested the product they identified the characteristics that would be most required by the users and that they would expect from the paint themselves. The quick drying and the comfort of having an acrylic product with a perfect matte finish could be improved in terms of usability if the brush strokes were not perceived, provided a perfect covering and if they could also be applied with an airbrush with the same ease as the enamel based paints.

Lo primero que vas a ver es un envase con el logo de AK en el fondo identificando el producto y un tapón blanco característico con un depósito en su parte superior que permite depositar pintura y lograr una rápida y precisa identificación del color.

Nuestro equipo de modelistas asumieron el rol de consumidor final, probaron el producto hasta identificar las características que necesitan los usuarios y que a ellos mismos les gustaría encontrar en una pintura. El secado rápido y la comodidad de tener un producto acrílico con un acabado mate perfecto se podía mejorar en cuanto a usabilidad si los trazos del pincel no se percibiesen, proporcionasen una perfecta cubrición, y que además se pudiesen aplicar con aerógrafo con la misma facilidad que las pinturas de base esmalte.

Original trademark at the bottom of the bottle.

Marca original en la parte inferior del bote.

Use the top hole featuring an eyedropper to deposit the paint.

Usar el orificio superior del cuentagotas para depositar la pintura.

Apply some drops in the top hole of the cap.

Aplicar unas gotas en el orificio del tapón.

Patented cap, easy opening, neutral color to make visible any kind of paint.

Tapón patentado, fácil apertura, color neutro para hacer visible cualquier tipo de pintura.

Remove the cap.
Quitar el tapón.

TYPES OF ACRYLIC PAINTS 3GEN

/ TIPOS DE PINTURAS ACRÍLICAS 3GEN

3GEN
ACRYLICS

/ GENERIC RANGE

The basic label. The orange dot is the element that remarks a range of colors designed for any kind of modeler. The clear and easily identifiable label includes the name of the color and its reference code at the top.
La etiqueta general. El punto naranja es el elemento que destaca en un rango de colores diseñados para cualquier tipo de modelista. La etiqueta clara y fácilmente identificable, incluye el nombre del color y su referencia en la parte superior.

/ PASTEL

There are 6 pastel colors within the range, which are identified by a pastel blue circle. These tones can be used, as the others, in any type of modeling, figures, sceneries, buildings, vehicles...
Existen 6 colores pastel dentro de la gama, los cuales están identificados con un círculo azul pastel. Estos tonos pueden ser utilizados, como el resto, en cualquier rama de modelismo, figuras, escenarios, edificios, vehículos...

/ METALLIC

The range contains a selection of 22 metallic tones with ultrafine pigmentation, marked by the label featuring a dark blue circle.
La gama contiene una selección de 22 tonos metálicos con pigmentación ultrafina identificados por las etiquetas que contienen un círculo azul oscuro.

/ INTENSE

Intense colors are identified with the yellow circle on the label. These tones contain pigments of high purity and high concentration for the most vivid colors.
Los colores intensos están identificados con el círculo amarillo en la etiqueta. Estos tonos contienen pigmentos de gran pureza y alta concentración para los colores más vivos.

/ COLOR PUNCH

These colors have been formulated for both shadow shades and much more vivid and intense mid-tones. Drop these colors onto your palette and dilute slightly to instantly see the punch of color they will bring to your miniatures, maintaining a lot of power even after blending.
Estos colores han sido formulados para obtener tanto matices en sombra como tonos medios mucho más vívidos e intensos. Deposita estos colores en tu paleta y diluye ligeramente para ver al instante el punch de color que van a aportar a tus miniaturas, manteniendo mucha potencia incluso tras la realización de mezclas.

/ AUXILIARY

The bottles identified by labels with a grey circle comprise specially formulated mediums to modify the properties of paints. Glaze Medium dilutes the paints and extends their drying time allowing to make glazes or mixtures. Metallic Medium mixed with other paints offers a pearly and metallic effect. Crackle Medium causes the paint to crack, whilst the Chipping Medium, applied between two layers of paint, enables to create chipping effects on the top surface color.
Los envases identificados con etiquetas con el círculo gris comprenden Medios especialmente formulados para modificar las propiedades de las pinturas. Glaze Medium diluye los colores y extiende su tiempo de secado para efectuar veladuras o mezclas. Metallic Medium mezclado con los colores ofrece un efecto nacarado y metalizado. Con el Medium de Craquelado se consigue el cuarteado de la pintura y con el Chipping Medium, aplicado entre dos capas de pintura, se logra el desconchado del color superficial.

/ AFV COLORS

The AFV label identifies specific colors for painting military vehicles from all eras. Very special tones used by different armies in different periods (FS, RAL, etc.).
La etiqueta AFV contiene colores específicos para pintar vehículos militares de todas las épocas. Tonos muy especiales utilizados para diferentes ejércitos en diferentes periodos (FS, RAL, etc.).

/ FIGURE SERIES

The range with figure label is a compilation of very specific colors used for painting historical figures, including WWI, WWII and modern uniform tones that are not included in other series.
La etiqueta para figuras es una recopilación de colores muy específicos utilizados para pintar figuras históricas, segunda guerra mundial y uniformes modernos en tonos que no se incluyen en el resto de etiquetas.

/ AIRCRAFT SERIES

Another formula was developed for our AIR series. These paints have the correct opacity and produce a perfect satin finish. We offer a wide range of colors that are useful for painting models of aircraft from many countries and different periods, from World War One until today.
Otra fórmula fue desarrollada para nuestra serie AIRCRAFT. Estas pinturas tienen la opacidad correcta para aviación y producen un acabado satinado perfecto. Ofrecemos una amplia gama de colores que son útiles para pintar modelos de aeronaves de muchos países y diferentes periodos, desde la Primera Guerra Mundial hasta nuestros días.

/ EFFECTS

Acrylic effects for finishing figures and scenery. Achieve effects such as realistic blood, dense viscera effect with traces or a chipping effect by using it between coats of paint.
Efectos acrílicos para acabado de figuras y escenografía. Consigue efectos como sangre realista, efecto denso de vísceras con trazas o un efecto para realizar desconchones utilizándolo entre capas de pintura.

AK ACRYLIC WASHES

3GEN
ACRYLICS

Washes are one of the fundamental techniques in modeling to add depth, realism, and contrast to any accessory or model. This range of acrylic washes consists of low-density paints, highly fluid products that allow the pigment to naturally settle into the crevices, panels, and raised areas of the model, subtly and precisely highlighting details and shapes, transforming the piece's final appearance.

Thanks to their very matte acrylic base, these washes offer fast drying, easy control during application, and great versatility, making them suitable for both beginners and advanced modelers. They can be applied with a brush or airbrush and allow for easy corrections before fully drying, avoiding any shine.

Washes are also ideal for creating shadow, dirt, wear, and weathering effects, blending perfectly with other products and finishing techniques. The result is a more realistic and balanced look that enhances every detail and brings any modeling project to life.

Los lavados son una de las técnicas fundamentales en el modelismo para aportar profundidad, realismo y contraste en cualquier accesorio o maqueta. Este rango de lavados acrílicos son pinturas de baja densidad y alta fluidez que permiten que el pigmento se deposite de forma natural en las hendiduras, paneles y relieves del modelo, resaltando los detalles y volúmenes de manera sutil y controlada, cambiando la apariencia final de la pieza.

Gracias a su base acrílica muy mate, estos lavados ofrecen un secado rápido, un fácil control durante la aplicación y una gran versatilidad, siendo adecuados tanto para principiantes como para modelistas avanzados. Pueden aplicarse con pincel o aerógrafo y permiten correcciones sencillas antes del secado completo evitando cualquier tipo de brillo.

Los lavados también son ideales para crear efectos de sombra, suciedad, desgaste y envejecido, integrándose perfectamente con otros productos y técnicas de acabado. El resultado es un aspecto más realista y equilibrado, que realza cada detalle y aporta vida a cualquier proyecto de modelismo.

QUICK GEN is AK's color range for quick painting. Each bottle contains a special formulation based on a next-generation resin that makes it the best single layer paint for miniatures.

QUICK GEN es la gama de colores de AK para pintar de forma rápida. Contiene una formulación especial basada en una resina de nueva generación que la convierte en la mejor pintura en una sola capa para miniaturas.

HIGH QUALITY ACRYLIC PAINTS

TO FACILITATE MINIATURES PAINTING

WITH THE CONTRAST TECHNIQUE

What does This Mean?

¿Qué significa esto?

THESE PAINTS EMBODY THE CONCEPT OF QUICK CONTRAST PAINTING, flowing naturally across the surface, accumulating in details, and creating a sense of depth in one coat.

Designed for miniature painters of RPGs, wargames and board games.

They enhance miniature details without requiring advanced techniques, just a brush. Ideal for those who want to paint their armies quickly and efficiently without sacrificing quality.

ESTAS PINTURAS SINTETIZAN LA IDEA DE PINTURA RÁPIDA POR CONTRASTE y fluyen de manera natural sobre la superficie, acumulándose en los detalles y generando un efecto de profundidad en una sola capa.

Diseñadas para pintores de miniaturas de Rol, wargames y juegos de mesa.

Permiten resaltar los detalles de las miniaturas sin necesidad de técnicas avanzadas, directamente con un pincel. Están indicadas para los que buscan pintar sus ejércitos de forma rápida y efectiva sin sacrificar la calidad.

These paints reduce the steps we have to take with traditional paints (priming, base coat, shadows, highlights) to a single step after priming*. This significantly reduces the time needed for painting figures and, above all, offers incredible results.

** It is recommended to prime in white to take full advantage of the paint's qualities.*

Estas pinturas reducen los pasos que hemos de dar con pinturas tradicionales (imprimación, pintura base, sombras, luces) a un único paso después de la imprimación*. Esto reduce sensiblemente el tiempo para el pintado de figuras y, sobre todo, ofrece unos increíbles resultados.

** Se recomienda imprimir en blanco para aprovechar todas las cualidades de la pintura.*

THE QUICK GEN FORMULA IS TECHNICALLY THE MOST ADVANCED PAINT ON THE MARKET.

Offering a wide range of possibilities and solutions, thanks to its components that ensure top performance.

LA FÓRMULA QUICK GEN ES TÉCNICAMENTE LA MÁS AVANZADA DE CUANTAS PINTURAS EXISTEN EN EL MERCADO.

Ofreciendo una gran variedad de posibilidades y soluciones gracias a sus componentes que garantizan las mejores prestaciones.

Your game figures ready in minutes!

THE MEDIUM / EL MEDIUM

¿POR QUÉ EL MEDIUM?

The MEDIUM is a low-viscosity gel designed to maintain the properties of the formula while offering maximum performance.

This QUICK GEN medium allows the paint to glide more easily, with improved surface tension to prevent rings and stains, resulting in a uniform finish.

El MÉDIUM es un gel de baja viscosidad para mantener las propiedades de la fórmula ofreciendo máximo rendimiento.

Este medium de las QUICK GEN permite deslizar mejor la pintura, en la que se ha mejorado la tensión superficial para evitar cercos y manchas, permitiendo un acabado uniforme.

THE INKS

SOUL OF COLOR

Inks are highly pigmented and transparent products designed to modify the tone of surfaces without obscuring the details of the model. Their formulation allows for smooth glazing and subtle color transitions, adding depth, chromatic richness, and a more realistic finish.

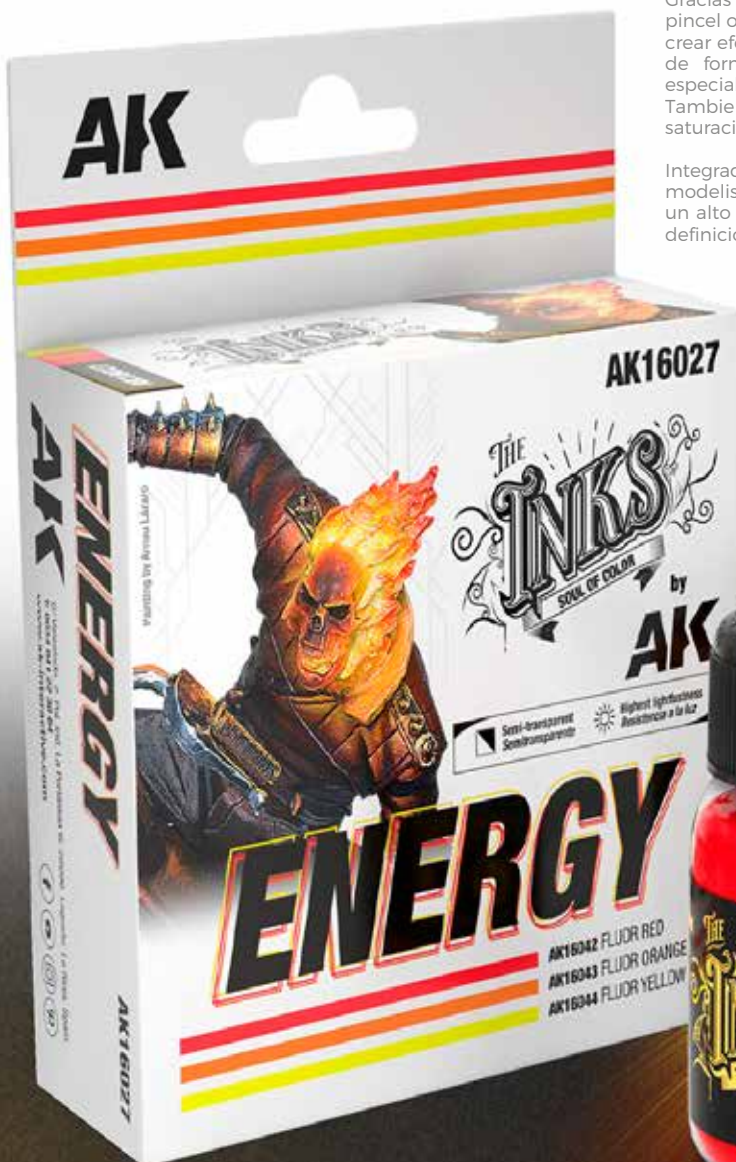

Thanks to their excellent flow and control, these inks can be applied with a brush or airbrush, making them ideal for intensifying colors, unifying surfaces, creating dirt, moisture, or wear effects, and enhancing highlights and shadows with precision. Their transparency makes them a particularly versatile tool for layering, filtering, and building up effects. They can also be used in combination with acrylic paints to boost their saturation and intensity.

Integrated into the painting and weathering process, modeling inks expand the modeler's creative possibilities, offering a high level of control and a natural, balanced final result without losing definition or texture.

Las tintas son productos altamente pigmentados y de gran transparencia, diseñados para modificar el tono de las superficies sin ocultar los detalles del modelo. Su formulación permite crear veladuras suaves y transiciones de color sutiles, aportando profundidad, riqueza cromática y un acabado más realista.

Gracias a su excelente fluidez y control, estas tintas pueden aplicarse con pincel o aerógrafo, siendo ideales para intensificar colores, unificar superficies, crear efectos de suciedad, humedad o desgaste, y potenciar luces y sombras de forma precisa. Su transparencia las convierte en una herramienta especialmente versátil para trabajar capas, filtros y efectos acumulativos. También pueden usarse en combinación con las pinturas acrílicas potenciando la saturación y la intensidad de estas.

Integradas dentro del proceso de pintura y envejecido, las tintas para modelismo amplían las posibilidades creativas del modelista, ofreciendo un alto nivel de control y un resultado final natural y equilibrado, sin perder definición ni textura.

REAL COLORS

LACQUER BASED PAINT

AK Real Colors (RC) are lacquer-based paints designed for use with an airbrush, aimed at achieving the most accurate and realistic tones on scale models. They spray exceptionally well, creating ultra-thin layers, and are compatible with other lacquer-type paints and thinners on the market. They spray extremely well, creating ultra-thin layers on your models, and are compatible with other lacquer paints and thinners on the market. Real Colors are the best paints for modelers with a highly realistic approach to civilian and military models.

Los colores reales de AK (Real Colors o RC) son pinturas con base laca diseñadas para su utilización con el aerógrafo, orientadas a lograr los tonos más precisos y realistas en las maquetas a escala. Se rocían extremadamente bien, creando capas ultrafinas y son compatibles con otras pinturas de tipo laca y diluyentes del mercado. Real Colors son las mejores pinturas para modelistas con un enfoque muy realista en los modelos civiles y militares.

DESIGNED FOR
AIRBRUSHING

IMPROVED FORMAT
UPDATED RANGE

NEW FORMAT. INCREASED CAPACITY

The Real Colors range was initially available in 10 ml glass bottles, typically used for this type of paint, but we have now managed to introduce a more user-friendly packaging in the form of 18 ml plastic dropper bottles.

La gama Real Colors estaba disponible inicialmente en frascos de vidrio de 10 ml, típicos de este tipo de pinturas, pero ahora hemos introducido un envase más fácil de usar, en forma de frascos de plástico de 18 ml con cuentagotas.

NEW CAP

Easily recognizable.
Distinctive and exclusive.

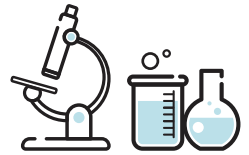

Nuevo tapón. Rápidamente identificable.
Característico y exclusivo.

NEW DISPENSER

The new bottle features a dropper which allows for easier loading of the paint into your airbrush cup and creating custom color mixes with more precision.

Incluyen un dosificador que nos permitirá realizar mezclas de manera más precisa. Además nos resultará más cómodo verterla en la copa del aerógrafo y también conservarlas mejor.

**SAME FORMULA.

La gama Real Colors consta de 180 colores, entre los que se incluyen 26 colores básicos, 130 colores militares y 24 colores especialmente desarrollados para pintar maquetas de coches y motos.

26 colors

Standard colors are the basic shades that are most commonly used in all modeling branches. Also included are the clear colors and varnishes.

Los colores standard son los tonos más comunmente usados en distintas ramas modelísticas. Incluyen tonos básicos como los colores Clear, barnices, etc.

24 colors

This range is developed for painting car and motorcycle models, including the most popular colors used by iconic manufacturers such as Renault, Ferrari, Alfa Romeo, Lotus, Subaru, Ducati, Kawasaki, etc. Together with the range of standard colors suitable for interiors and details, it is the combination that any car or motorbike modeler needs.

- To achieve an ultra-glossy finish use RC705 Super Gloss Finish 1K.

El rango de colores para modelismo civil incluye los colores más populares usados por diferentes marcas como Renault, Ferrari, Alfa Romeo, Lotus, Subaru, Ducati, Kawasaki, etc. Junto con el rango de colores standard para interiores y pequeños detalles, resulta la combinación perfecta que cualquier modelista de vehículos civiles necesita.

- Para conseguir un acabado ultra-brillante utiliza el barniz RC705 Super Gloss Finish 1K.

130 colors

The military range covers both the aircraft and AFV colors from the 1930s to the present day. Many of them are referenced to the RAL, Federal Standard or British Standard color systems, whilst the others are based on the period color samples or reproduced original formulas.

El rango de colores militares abarca tanto los colores utilizados para aviones como para vehículos terrestres desde la década de los años 30 hasta la actualidad. Algunos colores están referenciados a cartas RAL, Federal Standard o British Standard, y otros están basados en colores originales.

RC705
**SUPER
GLOSS
FINISH 1K**
BARNIZ
SUPER BRILLANTE 1K

High gloss monolayer varnish specially designed for model kits that does not yellow or damage decals. It can be applied over any paint: acrylic, lacquer or solvent-based.

Barniz monocapa de alto brillo especial para modelismo que no amarillea ni daña las calcas. Puede aplicarse sobre cualquier pintura: acrílicas, lacas o a base de disolventes.

REAL COLOR SETS / SETS REAL COLORS

The sets offer a convenient way of obtaining specific colors for a specific military branch in a specific period. The rear sides of the boxes feature profile guides showing samples of typical color combinations and schemes, but the included colors can be used for many other units, carrying different painting finishes. It is recommended checking further reference sources when painting your model kit.

Los sets ofrecen una forma práctica de obtener colores específicos para una rama militar concreta en un periodo concreto. En la parte posterior de las cajas se incluyen guías de perfiles que muestran ejemplos de combinaciones y esquemas de color típicos, pero los colores incluidos pueden utilizarse para otras unidades, con diferentes acabados de pintura. Se recomienda consultar fuentes de referencia cuando pinte su maqueta.

FILTERS / FILTROS

Filters are designed to achieve subtle tonal variation on vehicles and accessories, especially on camouflage patterns and monotone base colors. At the same time, the filter adds depth and richness to our vehicles, preparing them for the next steps in the painting process.

Los filtros están diseñados para lograr una variación tonal sutil sobre vehículos y accesorios, especialmente en colores de camuflaje y colores base monótonos. Al mismo tiempo, el filtro agrega profundidad y riqueza a nuestros vehículos, preparándolos para los próximos pasos de pintura.

PIN WASHES

/LAVADOS SELECTIVOS BASE ENAMEL

Pin Washes provide a high contrast to differentiate a piece or a volume of the model. Particularly suitable to highlight pieces with precision, highlighting the volumes by capillarity and preventing the paint from opening, concentrating it around the desired parts.

Los Pin Washes proporcionan un alto contraste para diferenciar una pieza o un volumen de la maqueta. Especialmente indicados para resaltar piezas con precisión, remarcando los volúmenes por capilaridad y evitando que la pintura se abra, concentrándola alrededor de las partes deseadas.

NATURAL OXIDANTS SETS

/ SET OXIDANTES NATURALES

AK11264 RUST EFFECT SET

Included / Incluye:
AK11266, AK11268

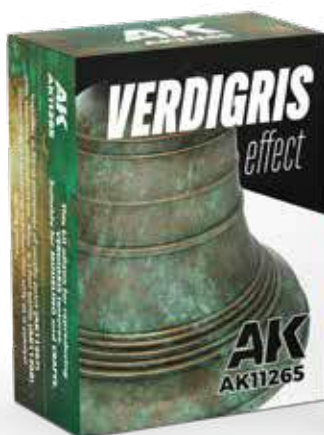

This kit allows you to reproduce highly realistic rust effects at scale on models and miniatures. It includes a 35 ml bottle of acrylic paint (AK11266) containing reactive microparticles.

The 18 ml bottle (AK11268) is an oxidizing solution that acts as a catalyst for the paint to achieve the corrosion effect.

Este kit permite reproducir efectos de óxido a escala muy realistas en maquetas y miniaturas. Incluye un bote de 35 ml de pintura acrílica (AK11266) que contiene micropartículas reactivas.

El bote de 18 ml (AK11268) es una solución oxidante que actúa como catalizador de la pintura para poder obtener el efecto de corrosión.

AK11265 VERDIGRIS EFFECT SET

Included / Incluye:
AK11267, AK11268

This kit allows you to recreate verdigris effects and textures on pieces and miniatures. Verdigris is a semi-saturated blue/green patina that forms on copper surfaces or its alloys, such as bronze or brass.

It includes a 35 ml bottle of Bronze acrylic paint (AK11267) containing reactive microparticles and an 18 ml bottle (AK11268) of an oxidizing solution that acts as a catalyst to achieve the verdigris effect.

Este kit permite reproducir efectos y texturas de verdigris en piezas y miniaturas. El verdigris es una pátina de color azul/verde semisaturado que se forma sobre superficies de cobre o de alguna de sus aleaciones, como bronce o latón.

Incluye un bote de 35 ml de pintura acrílica color Bronze (AK11267) que contiene micropartículas reactivas. El bote de 18 ml (AK11268) es una solución oxidante que actúa como catalizador de la pintura para poder obtener el efecto de verdigris.

AK11268

OXIDIZING AGENT / AGENTE OXIDANTE

This catalyst reacts when in contact with IRON paint (AK11266) and BRONZE paint (AK11267). It can be diluted with water to achieve more subtle results.

Este catalizador actúa en contacto con la pintura IRON (AK11266) y con la Pintura BRONZE (AK11267). Puede diluirse con agua para obtener resultados más sutiles.

AK11266

IRON EFFECT / EFECTO HIERRO

AK11267

BRONZE EFFECT / EFECTO BRONCE

PIGMENTS / PIGMENTOS

Modeling pigments are ultra-fine colored powders used to recreate realistic weathering and environmental effects on scale models. They are ideal for simulating dust, mud, rust, soot, and other natural finishes. Pigments can be applied dry for subtle effects or mixed with thinners and binders for more intense, permanent results, adding depth, texture, and realism to models.

Los pigmentos para modelismo son polvos coloreados ultrafinos que se utilizan para recrear de forma realista el envejecido y los efectos ambientales en maquetas a escala. Son ideales para simular polvo, barro, óxido, hollín y otros acabados naturales. Los pigmentos pueden aplicarse en seco para lograr efectos sutiles o mezclarse con diluyentes y aglutinantes para obtener resultados más intensos y permanentes, aportando profundidad, textura y realismo a los modelos.

AK048 PIGMENT FIXER

Recommended to adhere pigments to the surfaces of your models and bases. Once dried, pigments are permanently adhered to the surface and return to dry color.

Recomendado para adherir pigmentos de forma definitiva a las superficies de sus modelos y bases. Una vez secos, los pigmentos se adhieren permanentemente a la superficie y vuelven al color seco.

WEATHERING SETS

/ SETS DE ENVEJECIMIENTO

AK077 HEAVY MUDDY WEATHERING SET

Included / Include: AK078 Damp Earth, AK079 Wet Effects Fluid, AK080 Summer Kursk Earth, AK081 Dark Earth Pigment, Plaster

AK087 ENGINES AND METAL WEATHERING SET

Included / Include: AK082 Engine Grime, AK083 Track Wash, AK084 Engine Oil, AK085 Track Rust Pigment, AK086 Dark Steel Pigment

AK138 CHIPPING ESSENTIALS WEATHERING SET

Included / Include: AK088 Worn Effects Fluid, AK089 Heavy Chipping Fluid, AK11207 Aluminium (Chipping), AK11113 Chocolate (Chipping)

AK091 INTERIOR WEATHERING SET

Included / Include: AK11003 White Grey, AK093 Wash for Interiors, AK094 Streaking Effects for Interior

AK060 DUST EFFECTS AND WHITE SPIRIT

Included / Include: AK011 White Spirit, AK015 Dust Effects, AK022 Africa Dust Effects

ABT 502 OILS

ABT 502 oil colors are specially designed for modelers as they are formulated with a high quality pigment and an ideal oil proportion, which facilitates much more realistic finishes that cannot be imitated with arts oil paints that can usually be found in craft stores. Thanks to its wide range of colors, these oils can be used in all areas of modeling: from vehicles to planes, boats, figures, etc.

Los óleos ABT 502 están especialmente diseñados para modelistas, ya que están formulados con un pigmento de alta calidad y una proporción ideal de aceite, lo que facilita unos acabados mucho más realistas que no pueden imitarse con los óleos para bellas artes que suelen encontrarse en las tiendas de manualidades. Gracias a su amplia gama de colores, estos óleos pueden utilizarse en todos los ámbitos del modelismo: desde vehículos a aviones, barcos, figuras, etc.

Exclusive formula with less oil for more matte finishes and a perfect balance between the medium and the highest quality pigments

Fórmula exclusiva con menor cantidad de aceite para obtener acabados más mates y un equilibrio perfecto entre el medio y unos pigmentos de la más alta calidad.

XTREME METAL

High-quality paints developed with special metallic micro-pigments, formulated on a lacquer base and ready to be airbrushed, so the modeler can achieve the best results. Resistant to any type of weathering, with very high covering power; no priming is necessary thanks to their adhesion and durability. This paint does not damage plastic, and it can be varnished without altering its shine. They are, quite simply, the highest-quality metallic paints for modeling.

Pinturas de alta calidad desarrolladas con micro-pigmentos metálicos especiales, formuladas en base laca, lista para ser aerografiada, para que el modelista consiga los mejores resultados. Resistentes a cualquier tipo de weathering, con un poder de cobertura muy alto, no es necesario imprimir gracias a su agarre y resistencia. Esta pintura no daña el plástico, y se puede barnizar sin alterar su brillo. Son, sencillamente, las pinturas metálicas de mayor calidad para modelismo.

XTREME METAL / METÁLICOS BASE LACA

The Xtreme Metal paint range includes a dedicated cleaner/thinner, three different dedicated primers, and a gloss black paint.

El rango de pinturas de la serie Xtreme Metal incluye un limpiador/disolvente específico, tres imprimaciones específicas diferentes y una pintura negra brillante..

SUPER CHROME / SUPER CROMO

Super chrome is a special ultra-glossy, alcohol-based ink including a resin component that improves the optical and mechanical properties of the ink. This formula optimises adhesion and gloss level, and helps to stabilise the pigments. The extra fine particles stay perfectly aligned to the surface and offer an extremely strong mirror effect as well as a high covering power.

Super chrome es una tinta especial ultrabrillante a base de alcohol que incluye un componente de resina que mejora las propiedades ópticas y mecánicas de la tinta. Esta fórmula optimiza la adhesión y el nivel de brillo, y ayuda a estabilizar los pigmentos. Las partículas extrafinas se mantienen perfectamente alineadas con la superficie y ofrecen un efecto espejo extremadamente fuerte, así como un alto poder de cobertura.

ARTIST DENSE ACRYLIC COLOR

This extra-fine, high-quality acrylic is made from micropigments selected for their highest purity and intensity, offering vibrant, luminous tones with great opacity, in a 100% acrylic emulsion base compatible with all water-based additives. Its matte finish and ability to create very smooth transitions make it perfect for figure painting, even for artists seeking top-level artistic results.

Este acrílico extrafino de máxima calidad está elaborado a partir de micropigmentos, seleccionados con la mayor pureza e intensidad para ofrecer unos tonos vivos y luminosos, con gran opacidad, en una base de emulsión 100% acrílica compatible con todos los aditivos de base acuosa. Su acabado mate y su capacidad para realizar transiciones muy suaves los hace perfectos para la pintura de figuras, incluso para aquellos pintores que buscan un resultado artístico de primer nivel.

Painting system DUAL EXO

Based on the harmony of transitions through the use of analogous colors

Basado en la armonía de las transiciones mediante el uso de colores análogos.

“Future paint made simple”.

Dual Exo is a simplified color system and a paint range designed for science-fiction vehicles, Gundam, mechas, robots, etc. It has been technically developed using an ultra-resistant water-based acrylic copolymer to paint with maximum covering power and durability. It is a self-leveling acrylic paint with a satin finish that makes weathering processes easier once the base coat has been applied. Its high-quality additives provide an unprecedented multi-adhesion capability, as well as high durability. Its low viscosity makes it ideal for use with an airbrush, although it can also be used with a brush.

Dual Exo es un sistema simplificado de color y una gama de pintura ideada para vehículos de ciencia ficción, gundam, mechas, robots, etc. Está desarrollado técnicamente a través de un copolímero acrílico acuoso ultrarresistente para pintar con máximo poder de cobertura y resistencia. Es una pintura acrílica autonivelante de acabado satinado que facilita los procesos de weathering una vez aplicada la capa base. Sus aditivos de alta calidad nos proporcionan una capacidad multiadherente jamás vista, además de una elevada durabilidad. Su baja viscosidad hace ideal utilizarla con aerógrafo, aunque también puede usarse con pincel.

AK MARKERS

/ROTULADORES AK

We present the marker families that are revolutionizing the hobby world. Each one is designed to cover a specific need and for a specific type of user, making the modeler's life easier. These markers do not replace other paints and effects; rather, they are a new tool in the modeler's hands, expanding the possibilities of the hobby.

Te presentamos las familias de rotuladores que están revolucionando el mundo del hobby. Cada una de ellas está pensada para cubrir una necesidad concreta y para un tipo de público específico, haciendo la vida más fácil al modelista. Estos rotuladores no sustituyen al resto de pinturas y efectos, sino que son una nueva herramienta en manos del modelista, ampliando las posibilidades del hobby.

A marker for every use.

Common features of the 3 AK marker lines:

- Acrylic paint
- Matte finish
- Non-reactivable
- Perfect grip
- High pigmentation
- Easy to use

Un rotulador para cada uso.

Características comunes de las 3 líneas de rotuladores de AK:

- Pintura acrílica.
- Acabado mate.
- No se reactivan.
- Agarre perfecto.
- Alta pigmentación.
- Fácil de usar.

Differences between the 3 ranges:

Diferencias entre las 3 gamas:

REAL COLORS MARKERS

Features:

- Felt tip
- Historical modeling colors (Federal Standard, RLM, RAL)
- High coverage

Características:

- Punta de fieltro.
- Colores de modelismo histórico (Federal Standard, RLM, RAL).
- Alta cubrición.

Recommended for:

- Classic modelers interested in military or civilian themes
- Painting historical models and figures
- Realistic uniforms and camouflages
- Detailed fine line paneling

Recomendados para:

- Modelistas clásicos interesados en temáticas militares o civiles.
- Pintado de maquetas y figuras históricas.
- Uniformes y camuflajes realistas.
- Perfilados detallados de trazo fino.

PLAYMARKERS

Features:

- Brush tip
- Generic and saturated colors
- Allows color mixing
- Paint release button
- High coverage

Características:

- Punta de pincel.
- Colores genéricos y saturados.
- Permite mezclar colores.
- Pulsador de liberación de pintura.
- Alta cubrición.

Recommended for:

- Beginner painters or expert modelers seeking convenience
- Painting any object or figure from classic board games and wargames
- Detailed fine line paneling
- Hard-to-reach corners

Recomendados para:

- Pintores principiantes o modelistas expertos que buscan comodidad.
- Pintado de cualquier objeto o figura de juegos de mesa clásicos y wargames.
- Perfilados detallados de trazo fino.
- Recovecos de difícil acceso.

QUICK MARKERS

Features:

- Brush tip
- QUICK GEN formula for contrast technique
- Generic and saturated colors
- Allows color mixing
- Paint release button
- Medium coverage

Características:

- Punta de pincel.
- Fórmula QUICK GEN para técnica de contraste.
- Colores genéricos y saturados.
- Permite mezclar colores.
- Pulsador de liberación de pintura.
- Media cubrición.

Recommended for:

- Wargame and Warhammer painters looking to paint their armies quickly and efficiently
- Achieve light/shadow contrast in a single coat on any object or figure
- Hard-to-reach corners
- Use after white or bone primer

Recomendados para:

- Pintores de wargames y warhammer que buscan pintar sus ejércitos rápidamente y de forma eficaz.
- Conseguir contrastes de luz / sombra en una sola capa en cualquier objeto o figura.
- Recovecos de difícil acceso.
- Usar después de imprimación blanco o hueso.

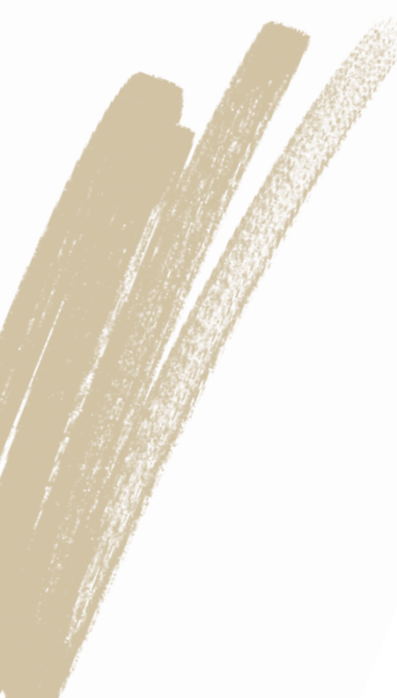

REAL COLORS MARKERS

/ROTULADORES REAL COLORS.

FAST-DRYING, WATER-RESISTANT ACRYLIC MARKERS. Specially formulated for modeling. Perfect grip on plastic, resin, metal, and wood surfaces. Resistant to water and heat. Can be layered like any other modeling paint. Does not smudge. High coverage. Allows for weathering with any product afterward without worrying about lifting the paint. Ideal for applying base coats on small scales or for painting camouflage accessories in a clean, convenient, and precise way.

ROTULADORES ACRÍLICOS DE SECADO RÁPIDO, RESISTENTES AL AGUA. Formulación especial para modelismo. Agarre perfecto sobre superficies de plástico, resina, metal y madera. Resistente al agua y al calor. Se puede aplicar en capas como cualquier otra pintura de modelismo. No difumina. Alta cobertura. Permite posterior envejecido con cualquier producto sin miedo a remover la pintura. Ideal para aplicar capas base en escalas pequeñas o para pintar accesorios de camuflajes de forma limpia, cómoda y precisa.

THE TIP

The tip is another important aspect of the marker. It has to be in line with the paint being used for everything to work properly. The wetting and anti-clogging agent in the paint allows the high-quality felt tip to provide a smooth and precise stroke. The special felt tip should be used gently, without pressing too hard. You can use the tip for details or the side to cover larger areas.

La punta es otro aspecto importante del rotulador. Debe estar en consonancia con la pintura utilizada para que todo funcione correctamente. El agente humectante y antiobstrucción de la pintura permite que la punta de fieltro de alta calidad proporcione un trazo suave y preciso. La punta de fieltro especial debe utilizarse con suavidad, sin presionar demasiado. Puede utilizar la punta para los detalles o el lateral para cubrir áreas más grandes.

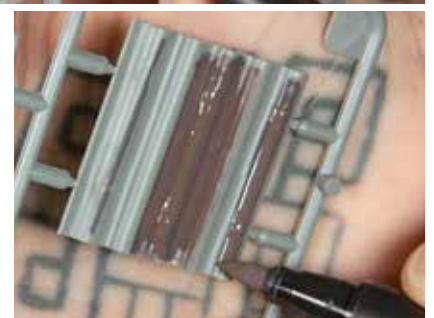

Using the tip at its end allows for more precise painting with less paint.
El uso de la punta en su extremo permite pintar con mayor precisión y con menos pintura.

When we want to paint larger surfaces, we can use the side of the tip to apply more paint and spread it more quickly.
Cuando queremos pintar superficies más grandes, podemos utilizar el lateral de la punta para aplicar más pintura y extenderla más rápidamente.

It's often very convenient to paint some accessories while they're still on the sprues, and markers are an ideal tool for that.

A menudo resulta muy práctico pintar algunos accesorios mientras aún están en las molduras, y los rotuladores son una herramienta ideal para ello.

PLAYMARKERS

FOR TABLETOP GAMERS

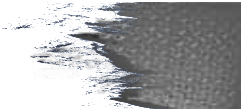

The easiest and fastest way to paint and add color to your miniatures. Playmarkers feature an exclusive acrylic paint formulation with excellent adhesion and resistance to handling or any subsequent process, no matter how aggressive. Each color has been carefully selected to complement the aesthetic of any board game and miniatures. The variety of colors, combined with the precision of the brush tip, creates the perfect combination for detailing small parts or quickly and efficiently painting entire miniatures.

La forma más fácil y rápida de pintar y dar color a tus miniaturas. Los Playmarkers cuentan con una exclusiva formulación de pintura acrílica con excelente adherencia y resistencia al manipulado o a cualquier proceso posterior, por agresivo que sea. Cada color ha sido cuidadosamente seleccionado para complementar la estética de cualquier juego de mesa y miniaturas. La variedad de colores, combinada con la precisión de la punta de pincel, crea la combinación perfecta para detallar pequeñas piezas o pintar miniaturas completas de manera rápida y eficiente.

QUICK MARKERS

Maximum contrast in a single coat.
Máximo contraste en una sola capa.

QUICK MARKERS is AK's range of markers designed for fast painting using the contrast painting technique, created for wargamers. They allow miniature details to stand out without the need for advanced techniques. Ideal for those looking to paint their armies quickly and effectively without sacrificing quality. These markers contain high-quality special paint, and their brush tip allows for easy and comfortable application to get the most out of them—just uncup and paint with the colors you choose to decorate your miniature.

QUICK MARKERS es la gama de rotuladores de AK para pintar de forma rápida con la técnica de pintura por contraste, ideada para wargamers. Permiten resaltar los detalles de las miniaturas sin necesidad de técnicas avanzadas. Están indicadas para los que buscan pintar sus ejércitos de forma rápida y efectiva sin sacrificar la calidad. Estos rotuladores contienen pintura especial de alta calidad y con su punta de pincel permiten una aplicación fácil y cómoda para sacar el máximo partido, con lo que el proceso de pintura se reduce a destapar y pintar con los colores que elijas para decorar tu miniatura.

DIORAMA SERIES

The widest range of diorama textures on the market, allowing you to create all kinds of vignettes and dioramas with exceptional realism. Choose the construction material you need, add the ground texture, and finally select the vegetation you'd like to place in your scene. It doesn't matter whether you're working on a forest, jungle, or urban diorama, or a winter, autumn, or summer vignette – we have everything you need to bring your project to life with these scenic textures.

La gama de texturas para dioramas más amplia del mercado, que te permitirá crear todo tipo de viñetas y dioramas con un realismo excepcional. Elige el material de construcción que necesitas, agrega la textura para el suelo y finalmente elige la vegetación que te gustaría colocar en tu escena. No importa si trabajas en un bosque, jungla o diorama urbano, viñeta de invierno, otoño o verano, tenemos todo lo que necesitas para darle vida a tu proyecto con estas texturas para escenografía.

ROCKS & GRANULAR MATERIAL FOR DIORAMAS

/ROCAS Y MATERIAL GRANULAR PARA DIORAMAS

Rocks and granular materials not only add texture and realism, but also build the atmosphere and character of each scene. From arid, mountainous terrain to urban landscapes, rural roads, or ruined environments, the right choice of these elements makes the difference between a simple model and an authentic, immersive representation.

In this section you will find a carefully curated selection of natural rocks, gravel, sand, and granular materials in different grain sizes, colors, and finishes. Each product has been chosen for its quality, versatility, and ease of application, making it possible to recreate realistic surfaces, relief, and effects at any scale.

Las rocas y materiales granulares no solo aportan textura y realismo, sino que también construyen la atmósfera y el carácter de cada escena. Desde terrenos áridos y montañosos hasta paisajes urbanos, caminos rurales o entornos en ruinas, la correcta elección de estos elementos marca la diferencia entre una maqueta simple y una representación auténtica y envolvente.

En esta sección encontrará una cuidada selección de rocas naturales, gravas, arenas y materiales granulares de distintas granulometrías, colores y acabados. Cada producto ha sido elegido por su calidad, versatilidad y facilidad de aplicación, permitiendo recrear superficies, relieves y efectos realistas a cualquier escala.

Vegetation is the element that brings life, scale, and realism to any diorama or scene. Through trees, bushes, foliage, grass, and small natural details, it is possible to transform a setting into something dynamic, believable, and full of atmosphere. In this section you will find a wide variety of materials designed to recreate natural landscapes with precision and detail. From fibers and flocks in different shades to bushes, mosses, plants, and ground cover, each product has been selected for its quality, texture, and ease of integration into projects at different scales. Whether to represent dense forests, open meadows, urban gardens, or historical settings, our vegetation range will allow you to build environments rich in nuance, depth, and naturalness, enhancing the visual impact of every diorama.

La vegetación es el elemento que aporta vida, escala y realismo en cualquier diorama o escena. A través de árboles, arbustos, follaje, césped y pequeños detalles naturales, es posible transformar un entorno dinámico, creíble y lleno de atmósfera. En esta sección encontrará una amplia variedad de materiales diseñados para recrear paisajes naturales con precisión y detalle. Desde fibras y flocados de distintas tonalidades hasta arbustos, musgos, plantas y coberturas de suelo, cada producto ha sido seleccionado por su calidad, textura y facilidad de integración en proyectos de diferentes escalas. Ya sea para representar bosques densos, praderas abiertas, jardines urbanos o escenarios históricos, nuestra línea de vegetación le permitirá construir ambientes ricos en matices, profundidad y naturalidad, potenciando el impacto visual de cada diorama.

ELASTIC RIGGING BOBBIN / BOBINAS DE HILO ELÁSTICO

The elastic thread is a suitable material in modeling to make any type of ultra-realistic bracing in airplanes, boats, antenna fastening, Sci-fi, dioramas, etc. Elasticity allows for easy installation and a natural fit tight. It can be glued with cyanoacrylate, handled with tweezers. The excess may be cut with a sharp blade. Once placed it can be easily painted with an ink marker or silver paint if desired. It is provided as a practical spool and is 20m long.

El hilo elástico es un material adecuado en modelismo para realizar cualquier tipo de riostrado ultra-realista en aviones, barcos, sujeción de antenas, Sci-fi, dioramas etc. La elasticidad permite colocarse fácilmente y ajustarse de forma natural tensada. Se puede pegar con cianocrilato, manejar con una pinza y cortar el sobrante con una cuchilla afilada. Una vez colocado es muy sencillo de pintar con un marcador de tinta o pintura plateada si se desea. Se sirve en una práctica bobina y tiene 20m de longitud.

60 ML**

This auxiliary product is formulated with a water-based acrylic polymer binder and allows paints to be thinned without altering their color properties, adhesion, elasticity, or drying time. It has a milky consistency that dries transparent and colorless without affecting the colors. Recommended for creating glazes or transparencies.

Este producto auxiliar esta formulado con un aglutinante de polímero acrílico a base de agua, y permite diluir las pinturas sin cambiar sus propiedades de color, adherencia, elasticidad o tiempo de secado. Posee una consistencia lechosa que seca de forma transparente e incolora sin interferir en los colores. Recomendado para crear veladuras o transparencias.

PRIMERS / IMPRIMADORES

Self-leveling Acrylic Surface Primer to be applied with a brush or an airbrush. Formulated for every kind of surface. Shake thoroughly before use. High gripping power. Fast dry, sandable within 24 hours. Water-soluble, you can apply it straight from the bottle or use diluted. Non-toxic.

Imprimación acrílica autonivelante para superficies para aplicar con pincel o aerógrafo. Formuladas para todo tipo de superficies. Agitar bien antes de usar. Alto poder de agarre. Secado rápido, se puede lijar en 24 horas. Soluble en agua, se puede utilizar directamente o se pueden aplicar diluidas. No tóxico.

PRODUCTS FOR DECALS / PRODUCTOS PARA CALCOMANÍAS Y PASTAS

Optimize the finish of your decals with our products specifically designed for a precise and professional fit and uniform finish. Combined, Setter and Softener give you the control and precision needed to make every detail of your model look flawless.

Optimiza el acabado de tus calcomanías con nuestros productos diseñados específicamente para un ajuste preciso y profesional. Combinados, Setter y Softener te brindan el control y la precisión necesaria para que cada detalle de tu maqueta luzca impecable.

AK329
DECAL SETTER

Makes it easier and increases adhesion of decals on smooth or slightly textured surfaces, helping them conform perfectly to the details of the model.

Facilita e incrementa la adhesión de las calcomanías sobre superficies lisas o ligeramente texturizadas, ayudando a que se amolden perfectamente a los detalles del modelo.

AK330
DECAL SOFTENER

Softens and flexibilizes decals, allowing them to adapt to curves, corners, and reliefs without wrinkles or bubbles, achieving a professional and uniform finish.

Suaviza y flexibiliza las calcomanías, permitiendo que se ajusten a curvas, esquinas y relieves sin arrugas ni burbujas, logrando un acabado profesional y uniforme.

THE NEW GENERATION OF PROFESSIONAL ADHESIVES

A GLUE FOR EVERY PROJECT

AK's new range of professional adhesives brings together the most advanced formulas to offer fast, safe and durable solutions on any material.

This line of adhesives includes high-precision cyanoacrylates with different characteristics, glues for foam and materials for dioramas. It also features specialised adhesives for plastics and model assembly, as well as other special glues, covering all the model maker's needs.

Some of these superglues have names like Eraser, Wolverine, Magnet, or Flash because each one is a nod to the comic book universe.

Just as superheroes stand out for their unique abilities, these adhesives are inspired by those same qualities to convey their properties: extreme strength, flexibility, precision, and the ability to adhere in difficult conditions.

THEY ARE NOT JUST PRODUCTS:

They are "SUPERPOWERS" in a bottle, designed to solve real challenges with the same effectiveness and character as the heroes who inspire them.

AK

LA NUEVA GENERACIÓN DE ADHESIVOS PROFESIONALES

**UN PEGAMENTO
PARA CADA
PROYECTO**

La nueva gama de adhesivos profesionales de AK reúne las fórmulas más avanzadas para ofrecer soluciones rápidas, seguras y duraderas sobre cualquier material.

Esta línea de adhesivos incluye cianoacrilatos de alta precisión con diferentes características, pegamentos para foam y materiales para dioramas. También cuenta con adhesivos especializados para plásticos y montaje de maquetas y otros pegamentos especiales, cubriendo todas las necesidades del modelista.

Algunos de estos superpegamentos llevan nombres como Eraser, Wolverine, Magnet o Flash porque cada uno es un guiño al universo del cómic.

Igual que los superhéroes destacan por habilidades únicas; estos adhesivos se inspiran en esas mismas cualidades para transmitir sus propiedades: fuerza extrema, flexibilidad, precisión o capacidad de adherirse en condiciones difíciles.

NO SON SOLO PRODUCTOS:

Son "SUPERPODERES" en un envase, diseñados para resolver retos reales con la misma eficacia y carácter que los héroes que los inspiran.

SYNTHETIC BRUSHES

SYNTHETIC BRUSHES

/ PINCELES SINTÉTICOS

The range of brushes for models and miniatures from AK is made up of brushes that are truly necessary and efficient for the modeler.

Each of these brushes is made with high-quality synthetic bristles selected to ensure exceptional durability and performance.

They are designed with a black handle, and the tip features a colored stripe for each family, allowing them to be quickly distinguished.

La gama de pinceles para maquetas y miniaturas de AK está formada por los pinceles realmente necesarios y eficientes para el modelista.

Cada uno de estos pinceles está fabricado con pelo sintético de alta calidad seleccionado para garantizar una durabilidad y un rendimiento excepcionales.

Están diseñados con un mango de color negro y el extremo presenta una franja de color para cada familia que permite poder diferenciarlos rápidamente.

AK BASING BITS

AK BASING BITS

AK BASING BITS are high-quality resin accessories designed to bring life to the bases of your miniatures and scenes. In a matter of seconds, they add story, depth, and richness to the miniature.

- Highly detailed design. Masterfully sculpted to achieve a spectacular visual impact.
- Durable resin. Suitable for gaming and with excellent paint adhesion.
- Ready to use. You can prepare them easily; they have no flash and require no prior work.
- Themed sets. Each box contains a selection of pieces inspired by a specific environment: plants and rocks, wargame scenarios, special effects...

Los AK BASING BITS son accesorios de resina de alta calidad, pensados para dar vida a las bases de tus miniaturas y escenas. En cuestión de segundos, añaden historia, profundidad y enriquecen la miniatura.

- Diseño con gran detalle. Esculpidas con maestría para lograr un impacto visual espectacular.
- Resina Resistente. Apta para jugar y con una excelente adherencia para la pintura.
- Listas para usar. Puedes prepararlas fácilmente, no tienen rebabas ni requieren trabajos previos.
- Sets temáticos. Cada caja contiene una selección de piezas inspiradas en un entorno concreto: plantas y rocas, escenarios wargame, efectos especiales...

 114 pages. Bilingual English / Spanish edition

This special edition of Tanker magazine is focused on the Israel Defense Forces armoured vehicles. It is an excellent step-by-step guide on creating realistic miniatures of IDF AFVs in 1/35 scale. Our goal is to provide artistic inspiration and necessary guidance for your future projects. This is the first volume of the two that will feature the most iconic tanks and armoured vehicles of the Israel Defense Forces. Prepared in strict collaboration with Michael Mass of Desert Eagle Publishing!

Esta edición especial de la revista Tanker se centra en los vehículos blindados de las Fuerzas de Defensa de Israel. Es una excelente guía paso a paso sobre la creación de miniaturas realistas de AFV de las FDI en escala 1/35. Nuestro objetivo es brindar la inspiración artística y la orientación necesaria para sus proyectos futuros. Este es el primer volumen de los dos que contará con los tanques y vehículos blindados más emblemáticos de las Fuerzas de Defensa de Israel. Preparado en estricta colaboración con Michael Mass de Desert Eagle Publishing.
